

Fastmarkets Dashboard Release Notes

26th May 2020

Version 1.5.5004

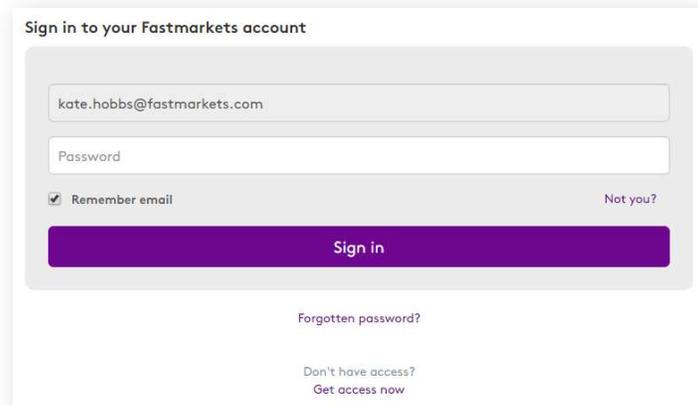

What's New?

New Features

This release of the Fastmarkets Dashboard includes the following new features releases to both the Dashboard desktop installed and web versions unless stated otherwise:

1. Login improvements – Remember email

To save time entering your login details this release introduces a new check box to remember your login email address.

The screenshot shows a login form titled "Sign in to your Fastmarkets account". It features two input fields: one for the email address (containing "kate.hobbs@fastmarkets.com") and one for the password. Below the password field is a checked checkbox labeled "Remember email" and a link "Not you?". A prominent purple "Sign in" button is centered below the form. At the bottom of the form, there are two links: "Forgotten password?" and "Don't have access? Get access now".

2. Workspace and news article sharing

New functionality will enable users to share a copy of workspaces or news articles with other Dashboard users through email or messaging. This functionality will save time where multiple users require a similar workspace set up, quickly replicate and amend your own workspaces or to share news content with colleagues.

Click on the **Share Workspace** icon in the top right corner and copy the URL* then paste to email or messaging applications. Any changes made to the workspace after the link is generated will not be shared. To share Market Pages click on the **Share Link** icon in the top right corner.

**The URL link will expire in 30 days.*

News article URLs can only be shared from the Dashboard web version, simply launch the article and copy/paste the article URL in the web browser to your email or messaging application.

Share workspace

Share a copy of this workspace with other dashboard users through email or messaging. Any changes made to the workspace after the link is generated will not be shared. The link will expire in 30 days.

3. Move widgets to other workspaces

This release introduces the ability to move widgets from one workspace to another saving time in recreating and giving greater flexibility in customizing workspaces. If you wish to retain a widget on the original workspace, duplicate it first. This new functionality can be found in the Edit Widget menu (three dots in top right corner) – select **Move widget to** and select your existing workspace or create a new workspace to move it to.

IO 62%

Line Chart 1Y 18 May 2019 - 18 May 2020

- Edit widget
- Convert currency/unit
- Move widget to**
- Duplicate widget

Back

- Move widget to
- Exchange and Physicals
- News overview
- Aluminium
- Historical prices**
- + Create New Workspace

4. Price Chart widget improvements:

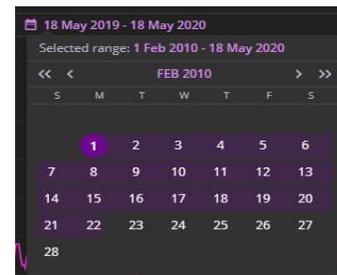

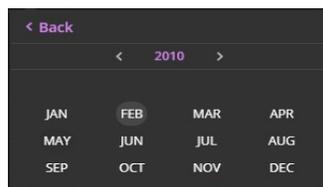

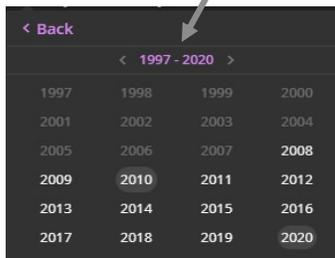

- a. Compare prices using multiple Y axes – this new functionality will plot each price on an individual Y axis enabling you to overlay and visualize prices together despite different price ranges and scaling. Click on the **Settings** icon to select:

- b. This release introduces improvements to the calendar selection features for the Price Chart Widget to select a specific start and end date for your chart. Click into calendar and make the following selection:

- i. Click on current month/year selection in purple then select the start year
- ii. Select start month
- iii. Select specific start date
- iv. Repeat steps 1-3 above for the end year/month & date

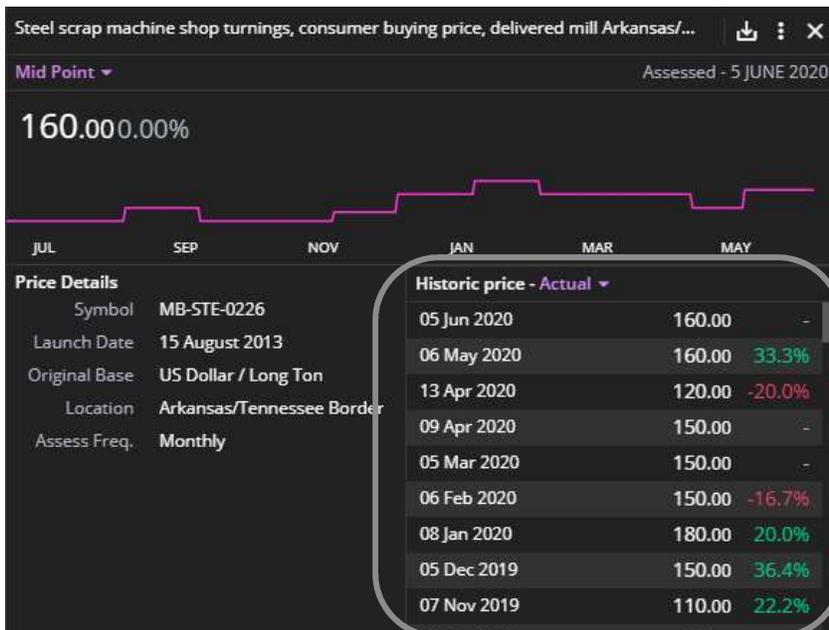

5. New default fields for the Multi Price Table

Published monthly average prices can now be easily viewed alongside our physical price assessments with the addition of two new default fields - **Monthly Average** (mid price) and **Monthly Average Assessment Period** have now been added. Click on **Settings** to further customize your Multi Price Table. Please note this will only be applied to new Multi Price Tables added after this release.

Description	Symbol	Assessment Date	Low	Mid	High	+/-	Monthly Average	Monthly Average Assessment Period
Aluminium P1020A premium, in-whs dup Rotterdam, \$/tonne	MB-AL-0346	07 May 2020	75.00	80.00	85.00	0.00	83.00	Apr 2020
Aluminium P1020A premium, in-whs dp Rotterdam, \$/tonne	MB-AL-0004	07 May 2020	90.00	97.50	105.00	0.00	97.19	Apr 2020
Aluminium import arbitrage, cfr Owensboro - origin LME warehouses, Johor, \$/tonne	MB-AL-0353	01 Apr 2020	152.51	152.51	152.51	-18.92	171.43	Mar 2020
Aluminium import arbitrage, cfr Owensboro - origin LME warehouses, Port Klang, \$/tonne	MB-AL-0354	01 Apr 2020	152.51	152.51	152.51	-18.92	171.43	Mar 2020

6. Full history available in Single Price Tile data table

Full price history is now available in the historic data section of the Single Price Tile, simply use the scroll bar to view further dated historical time series. Please note that the chart in the Price tile is still limited to 1 year history; for longer history please use the Price Chart widget.

Bug Fixes

There are no bug fixes in this release.

Known issues

If the desktop dashboard is open while the new version is deployed, some users might experience the following two issues.

- When the user opens a new dashboard window or creates an undocked widget, a spinner might show and the new window or widget might not be displayed.
- When the user tries to sign out, the button might not work.

If any user experiences this, the solution is to quit the application and reopen it. Then both issues will disappear and will not appear again.

Breaking Changes

There are no breaking changes with this release.
